

السلام عليكم و رحمة الله

Asalamu Alaikum
We are very happy to announce the official launch of the Murfreesboro Muslim Youth Inc. (MMY). MMY is now an autonomous, independent, incorporated, religious, non-profit entity, dedicated to the Muslim youth and community services.

MMY was founded following the brutal slaying of three wonderful Muslim youth in Chapel Hill, NC (The three winners). From this tragedy, we have learned many lessons; namely, the importance of reviving Islamic actions for the improvement of the collective social condition of the society we live in. Indeed, the three winners lived the prophetic example by serving others, well beyond their own Muslim communities.

We understand that American Muslims face many challenges, but they were specially chosen to represent Islam in America, the world leading country. Furthermore, our Muslim youth are especially blessed in having the knowledge, resources, and creativity to carry the responsibility of their faith and serve the community. Towards achieving this goal, we strive to shape a generation of young Muslims who are conscious of their duty to their Muslim and non-Muslim society, indeed, to the human family.

While this may seem a daunting task, we are reminded by the prophet (Peace be upon him) that minuscule, incremental steps that are constant are far better than large, one-time actions.

MMY has already begun and will continue empowering the Muslim youth in Murfreesboro through a series of character and leadership building activities. These activities aim to engage the youth in community services that foster relationships, establish and enhance the spirit of generosity that is found in each one of them, and develop a sense of pride in their Islamic identity.

Therefore, we turn our attention towards people building by providing the youth with the necessary tools they need to tackle future challenges within their respective societies, and improve the society they live in while building their own character, skills, and knowledge in the social justice, advocacy, leadership, organization, and fundamentals of the positive social reformation.

While launching the MMY, we understand that it is a learning process for everyone. At this stage, we ask for any kind of your support, by entrusting us with your youth, assisting us with ideas, logistics or financial support.
